Family reunion at dog show

Three puppies (Riley x Laika, litter 09) were shown in San Bernadino in January and did quite well at just 6 months of age. Pictured are *Tangens Once In A Blue Moon* "Ju-Ju", *Fly Me To The Moon* "Bob", Riley (the daddy), *Triton X-100*, *Shooting Star*, and cousin Karella. Bob won the puppy class on Saturday and Triton on Sunday.

Merci Isle Whippets running in the snow in Boston. They are led by "Brand" *Ch Tangens The Maverick Cosmonaut FCh* (litter 07). Owner of the pack is Iva Kimmelman.

"Monty", *Tangens Two For The Road*, has found his calling

Monty (litter 08) has done lure coursing, straight racing, and will soon try oval track racing. He has obtained his first lure coursing titles: Junior Courser and Senior Courser, and he has points towards his field champion title in both AKC and ASFA. His daily training keeps both him and his owner Anak Rabanal in shape.

Lost Whippet!

It is a terrible thing if your dog goes missing. I lost a dog many years ago. Not knowing what happened was awful. It took me 10 years to get over the loss - when I knew he would be gone anyway. Be prepared!

1. Use a safe collar with phone numbers.
2. Get a microchip and check that it works every time you go to the vet.
3. Never let the dog lose in unfamiliar territory.
4. Be sure you have a good picture of the Whippet to use for flyers in case it is missing.

Whippets on JogAdog

In time for the rainy season, I bought a Jogadog. So did Donna Pardi, owner of "Fanci" (*Tangens Maverick Red Moon*, litter 07). We have not had much rain, but Donna in Colorado has had good use of the jogadog and been able to keep Fanci in great shape.

"Solo" the sous-chef

Tangens Solar System (litter 09) is helping her owner Darin Marx to make dinner.

Lucca with new friend

Do they look happy! Lucca (*Tangens The Painted Desert*; litter 05; owner Susan Kallal) used to have a Burmese cat as his best buddy, but the cat passed away. Now he got new company, a cousin, "Julia", Elidas Julia Kallal.
